Department of Health and Social Services

Division for the Visually Impaired

The Division for the Visually Impaired Education Services Program provides statewide-related services to visually impaired children from ages 0-21 within the school districts they attend. These services are designed to teach children skills, which will allow them to succeed in their regular educational environment and the community. These services include but are not limited to specialized instruction in Braille, orientation/mobility, vision utilization, etc., the provision of specialized textbooks, materials and equipment, and counseling for students and their parents. School age students with visual disabilities are included in district unit count totals, with the Division for the Visually Impaired providing related services. The Division for the Visually Impaired also has its own Vocational Rehabilitation Unit which serves the students after the age of 14.

Educational services for school-aged (ages 4-20 inclusive) residents of Stackley Center are provided by the Howard T. Ennis School located in the Indian River School District. Department of Education—Adult & Prison Education Resources

The Department of Education provides an Adult Basic Education Program for adult offenders incarcerated in four major prisons (Sussex Correctional Institution, James T. Vaughn Correctional Center, Baylor Women's Correctional Institution and Howard R. Young Correctional Institution).

Newly committed inmates are assessed for current functioning level educational placement. The academic program's accountability is based upon mutually agreed upon performance levels between the Delaware Department of Education and the U.S. Department of Education. Students who attain a secondary assessment certificate may enroll in the James H. Groves Adult High School courses offered in the prison. The Prison Education Program also works with regionally or nationally certified

colleges to monitor post secondary course delivery paid for by offenders during their prison incarceration.

Each of the major prisons has a computer lab used by students to complete academic or life skills coursework. The labs also serve as the computer skills classrooms in which various Microsoft applications are taught.

Finally, the Prison Education Program provides vocational courses in three prisons, which include HVAC, plumbing, masonry, culinary arts, auto technology and network wiring.
