

Resource 8: Create a Vertical Timeline

Martin's Saturday

“On Saturday the first thing I did was go to soccer practice. Right after practice, we went to McDonalds for breakfast. After breakfast, I went home and did my chores. In the afternoon I went outside and played with my friends. Then we went to my grandmother’s house where we had dinner. I came home, watched some TV then went to bed.”

Task: Use the space below to create a **vertical timeline** that shows what Martin did on Saturday in the order in which each activity occurred.

Vertical Timeline

The form consists of five empty rectangular boxes arranged vertically, connected by a vertical line on the right side. Each box is intended for a student to write an activity from the text in chronological order.
