

2018-19 Adjustments for DPAS II Career & Technical Education (CTE) Measures B and C

Over the past several years, Delaware’s Career & Technical Education (CTE) Programs of Study have undergone extensive revisions to ensure alignment between academic and technical instruction. These content shifts have caused many DPAS II Measure B assessments and Measure C Growth Goals to be out of alignment with current Programs of Study.

The Delaware DOE conducted a review of current Measure B assessments and determined the Measure B assessments named in the chart below are out of alignment. These assessments have been removed from the approved Measure B assessment list beginning in the 2018-19 school year. Any teacher for which a Measure B assessment is no longer available will be designated a Group 3 educator. Group 3 educators will use two Measure C Growth Goals for their Student Improvement Component measures.

REMOVED MEASURE B ASSESSMENTS	
Subject Area	Grade Level/Course
Family & Consumer Sciences	Exploring Family & Consumer Sciences 6th grade
	Exploring Family & Consumer Sciences 7th grade
	Exploring Family & Consumer Sciences 8th grade
	Family & Community Services – Level I, II and III
	Food Prep & Production – Level I, II and III
	Early Childhood – Level I, II and III

	Architectural CAD I and CAD II
	Communication Technology – Level I
	Graphic Design & Production – Level I, II and III
	Processes of Design & Engineering – Level I
	Microsoft Eng. – Level I
AgriScience	Ag. Power and Mechanical Systems – Level I
	Agricultural Structure Systems – Level I
	Animal Science – Level I
	Biotechnology Applications – Level I
	Environmental Sci./Nature Res. – Level I
	Food Science Technology – Level I
	Intro. To Horticulture Sciences – Level I

Additionally, to align with the revised and expanded programs of student, [Measure C Growth Goals for Career & Technical Education](#) were published for use beginning in the 2018-19 school year. These updated Measure C Growth Goals have replaced all existing CTE Measure C Growth Goals and are intended to be used across all CTE subject areas — inclusive of Family & Consumer Sciences; Business, Finance & Marketing; AgriScience; Health Sciences; Technology Education; and Skilled & Technical Sciences certification areas. Please contact the individuals named below with any questions or for technical assistance.
