District-based Instructional Coaches/Specialists

School-based Specialists

Occupational Therapists

Physical Therapists

Speech/Language Pathologists

Special Education (not DCAS Alt; not reading and/or math 3H10)

World Language Immersion***

***High School Mathematics** educators will find their growth goals banded by content, rather than by grade or subject. Thus, educators and their evaluators will be able to elect goals that align to specific content, rather than to a course list, which will provide educators further discretion.

****Career & Technical Education** underwent significant revisions for 2018-19. These growth goals are intended to be used across all CTE content areas -- inclusive of the previous growth goal contents of Family & Consumer Sciences, Business, Finance & Marketing, Agriscience, Health Sciences, Technology Education, and Skilled & Technical Sciences.

*****World Language Immersion** is a new Measure C growth goal area for 2018-19.
