

General Expenditures - Allowable and Unallowable Costs

This guidance was adapted using resources from the New York State Education Department.

School Food Authorities (SFAs) must ensure that Program funds are used solely for the operation and improvement of Child Nutrition Programs. Programs include the School Nutrition Programs (SNPs), the Summer Food Service Program (SFSP), and the Child and Adult Care Food Program (CACFP). In addition, SFAs must comply with federal regulations and State laws. Federal regulations, 2 CFR Part 200—Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, can be found at [2 CFR 200](#).

SFAs should familiarize themselves with [2 CFR 200 Subpart E – Cost Principles](#) to determine whether a cost is allowable. In addition to ensuring whether costs are allowable, SFAs must follow proper procurement procedures when procuring all goods and services. When goods or services of any dollar amount are not procured properly, the cost of those goods/services are considered unallowable. Non-program funds must be used to pay for any goods/services procured improperly.

2 CFR 200.403, *Factors affecting allowability of costs*, states, *except where otherwise authorized by statute, costs must meet the following general criteria in order to be allowable under Federal awards:*

- (a) Be necessary and reasonable for the performance of the Federal award and be allocable thereto under these principles;
- (b) Conform to any limitations or exclusions set forth in these principles or in the Federal award as to types or amount of cost items;
- (c) Be consistent with policies and procedures that apply uniformly to both federally-financed and other activities of the non-Federal entity;
- (d) Be accorded consistent treatment. A cost may not be assigned to a Federal award as a direct cost if any other cost incurred for the same purpose in like circumstances has been allocated to the Federal award as an indirect cost;
- (e) Be determined in accordance with generally accepted accounting principles (GAAP), except, for state and local governments and Indian tribes only, as otherwise provided for in this part;
- (f) Not be included as a cost or used to meet cost sharing or matching requirements of any other federally-financed program in either the current or a prior period. See also §200.306(b);
- (g) Be adequately documented. See also §200.300 through 200.309 of this part; and
- (h) Cost must be incurred during the approved budget period. The Federal awarding agency is authorized, at its discretion, to waive prior written approvals to carry forward unobligated balances to subsequent budget periods pursuant to §200.308(e)(3).

The following examples provide guidance for allowable and unallowable uses of SNP funds. **This list is not all-inclusive**; SFAs should contact the Delaware Department of Education (DDOE) Nutrition Programs Office with any questions related to allowable expenses. In addition, SFSP and CACFP may have additional unallowable costs not listed here.

Note: In many areas, this document refers to the non-Federal entity, which is another term for the SFA.

Advertising/Public Relations

Advertising – Allowable advertising media includes magazines, newspapers, radio and television, direct mail, exhibits, electronic or computer transmittals.

- **Disposing of Surplus Materials**
 - *Allowable* - Materials and expenses to obtain services to properly dispose of scrap or surplus materials are an allowable use of Program funds.
- **Outreach**
 - *Allowable* – Program outreach and other specific purposes necessary to meet the requirements of the Federal award are an allowable use of Program funds.
- **Procurement**
 - *Allowable* – Costs to advertise the procurement of goods and services for the performance of a Federal award are an allowable use of Program funds.
- **Recruitment**
 - *Allowable* - Materials and expenses, such as advertising, to recruit personnel required for performance of a Federal award are allowable uses of Program funds.

Public Relations

- *Allowable* –
 - Costs specifically required by the Federal award are an allowable use of Program funds.
 - Costs of communicating with the public and press pertaining to specific activities or accomplishments which result from performance of the Federal award are allowable (these costs are considered necessary as part of the outreach effort for the Federal award).
 - Costs of conducting general liaison with news media and government public relations officers, to the extent that such activities are limited to communication and liaison necessary to keep the public informed on matters of public concern, such as notices of funding opportunities, financial matters, etc., are allowable.
- *Unallowable* - any promotional materials or activities for purposes other than those described as allowable. This includes the following types of costs:
 - Costs of meetings, conventions, convocations, or other events related to other activities of the entity, including:
 - Costs of displays, demonstrations, and exhibits;
 - Costs of meeting rooms, hospitality suites, and other special facilities used in conjunction with shows and other special events; and

- Salaries and wages of employees engaged in setting up and displaying exhibits, making demonstrations, and providing briefings.
- Costs of promotional items and memorabilia, including models, gifts, and souvenirs; and
- Costs of advertising and public relations designed solely to promote the SFA.

Alcoholic Beverages - Alcoholic beverages are unallowable costs.

Audit Services

- *Allowable* - A reasonably proportionate share of the costs of audits required by, and performed in accordance with, the Single Audit Act Amendments of 1996 (31 U.S.C. 7501-7507) is an allowable cost. For example, if the audit covers Child Nutrition Programs *and* non-Child Nutrition Programs, a percentage of the audit fee can be paid for with Program funds.
- *Unallowable* – The cost for any audit not conducted in accordance with requirements is not an allowable cost.

Bad Debts

- *Unallowable* - Debts which have been determined to be uncollectable, including losses (whether actual or estimated) arising from uncollectable accounts and other claims, are unallowable. Related collection costs, and related legal costs, arising from such debts after they have been determined to be uncollectable are also unallowable. Per USDA Policy Memo [SP 47-2016](#), bad debt must be written off as an operating loss but may not be absorbed by the non-profit school foodservice account; it must be restored using non-federal funds. These funds may come from the school district's general fund, special funding from State or local governments, school or community organizations, or any other non-federal sources.

Cell Phones

- *Allowable* - Cell phones and cell phone expenses *if* the cell phone contract is in the SFA's name are allowable costs.
- *Unallowable* – The following are considered unallowable costs:
 - Cell phones and cell phone expenses considered to be a stipend or allowance; and
 - Cell phones and cell phone expenses purchased and registered in the name of the employee.
 - If the cell phone is registered in the name of the employee and is used for business purposes only, it must be assured as such (for example, through a signed agreement). In this case, the SFA can reimburse the employee.
 - If the cell phone is registered in the name of the employee and is used for both business and personal use, the only time it can be reimbursed by the SFA is if the SFA has a methodology to show it is accurately allocated between personal and business use. For example, if an employee works 7 hours per day, 20.8% (35 hours/workweek ÷ 168 hours/week) of the cell phone bill can be reimbursed by the SFA. Written documentation to support both the methodology and the payment must be kept on file.

Conferences

A conference is defined as a meeting, retreat, seminar, symposium, workshop or event whose primary purpose is the dissemination of technical information beyond the non-Federal entity and is necessary and reasonable for successful performance under the Federal award.

- *Allowable* - Conference costs paid by the SFA as a sponsor or host of the conference may include rental of facilities, speakers' fees, costs of meals and refreshments, local transportation, and other items incidental to such conferences unless further restricted by the terms and conditions of the Federal award are allowable. SFA's must exercise discretion and judgment in ensuring that conference costs are appropriate, necessary and managed in a manner that minimizes costs to the Federal award.
 - The SFA must ensure that the training agenda, sign-in sheets, and other applicable documentation is maintained to support that the event covered Child Nutrition Programs training.
 - If meals are provided to the employee during the conference (meeting/training) at a cost to the SFA, training should take place during the meal.

Contributions

- *Unallowable* - Contributions of cash, property, and services by the SFA to another entity are unallowable.

Note: Per USDA, any program food not consumed may be donated to eligible local food banks or charitable organizations. "Eligible local food banks or charitable organizations" means any food bank or charitable organization which is exempt from tax under section 501(c)(3) of the Internal Revenue Code of 1986 (26 U.S.C. 501(c)(3)). SFAs should ensure that USDA guidelines are followed per [SP 11-2012](#).

Depreciation

Depreciation is defined as the method for allocating the cost of fixed assets to periods benefitting from asset use. SFAs should refer to 2 CFR 200.436 for further depreciation regulation.

- *Allowable* - The non-Federal entity may be compensated for the use of its buildings, capital improvements, equipment, and software projects capitalized in accordance with GAAP, provided that they are used, needed in the non-Federal entity's activities, and properly allocated to Federal awards. Such compensation must be made by computing depreciation. The allocation for depreciation must be made in accordance with regulation and documentation must be maintained (including equipment inventory records).
- *Unallowable* - For the computation of depreciation, the acquisition cost will exclude:
 - The cost of land;
 - Any portion of the cost of buildings and equipment borne by or donated by the Federal Government, irrespective of where title was originally vested or where it is presently located;
 - Any portion of the cost of buildings and equipment contributed by or for the non-Federal entity that are already claimed as matching or where law or agreement prohibits recovery; and
 - Any asset acquired solely for the performance of a non-Federal award.

Entertainment

- *Unallowable* - Costs of entertainment, including amusement, diversion, and social activities and any associated costs are unallowable, except where specific costs that might otherwise be considered entertainment have a programmatic purpose and are authorized with prior written approval of the DDOE Nutrition Programs Office. Examples of entertainment could include escape rooms, axe throwing, bowling, etc. USDA guidance states that if the activity is related to team building, training, or professional development designed for food service staff, and if the cost is reasonable, it could be allowable.

Equipment (Large Equipment) and other Capital Expenditures

- *Allowable* – Allowable large equipment and other capital expenditures include:
 - Capital expenditures for special purpose equipment (items or equipment used directly in preparing, storing, or serving meals). Note: Capital expenditures with a unit cost of \$5,000 or more must be approved prior to purchasing. SFAs should refer to the Preapproved Kitchen Equipment list for approved capital expenditures costing over \$5,000. If an item is not listed, the SFA must contact the DDOE Nutrition Programs Office for prior written approval;
 - Costs associated with the disposal or transfer of equipment. The SFA must follow proper procedures to dispose of equipment; SFAs should contact the DDOE Nutrition Programs Office if guidance is needed; and
 - Costs associated with upkeep of equipment that neither adds to the permanent value of the property nor appreciably prolongs its intended life (but keep it in an efficient operating condition) are allowable.
- *Unallowable* – Unallowable large equipment and other capital expenditures include:

Facilities, Utilities

- *Allowable* - Actual costs for utilities (gas, water, or electric) that are either accounted for separately or prorated for the food service program are allowable uses of Program funds. SFAs must have a documented and reasonable method to determine the cost of utilities; for example:
 - *Having a separate meter for the kitchen and foodservice storage areas; or*
 - *Applying a square foot percentage of total building space in use by the food service program to determine the food service program's proportion of the utility cost.*

Fines, penalties, damages and other settlements

- Costs resulting from violations of, alleged violations of, or failure to comply with federal, State, tribal, local, or foreign laws and regulations are unallowable, except when incurred as a result of compliance with specific provisions of the Federal award, or with prior written approval of the Federal awarding agency.

Insurance

- *Allowable* – The cost of insurance required or approved and maintained, pursuant to the Federal award, are allowable. Costs incurred because of losses not covered under nominal deductible insurance coverage provided in keeping with sound management practice, and minor losses not covered by insurance, such as spoilage, breakage, and disappearance of small hand tools, which occur in the ordinary course of operations, are allowable.
- *Unallowable* - Actual losses which could have been covered by permissible insurance (through a self-insurance program or otherwise) are unallowable, unless expressly provided for in the Federal award.

Interest

- *Allowable* - Financing costs (including interest) to acquire, construct, or replace capital assets are allowable, subject to the conditions of 2 CFR 200.449. This includes, but is not limited to:

SFAs should ensure in the case of a guest speaker for staff training, that the services are necessary, the cost is reasonable, and the training topics fall under an approved Professional Standard Area(s) in order for the cost to be allowable.

Publication and Printing Costs

- *Allowable* - Publication costs for electronic and print media, including distribution, promotion, and general handling are allowable. If these costs are not identifiable with a particular cost objective, they should be allocated as indirect costs to all benefiting activities of the non-Federal entity.

The following apply:
 - Costs incurred by employees and officers for travel, including costs of lodging, other subsistence, and incidental expenses, must be considered reasonable and otherwise allowable only to the extent such costs do not exceed charges normally allowed by the non-Federal entity in its regular operations as the result of the non-Federal entity's written travel policy. In addition, if these costs are charged directly to the Federal award, documentation must justify that participation of the individual is necessary to the Federal award and the costs are reasonable and consistent with non-Federal entity's established travel policy.
 - Costs incurred for commercial air travel in excess of the basic least expensive unrestricted accommodations class offered by commercial airlines are unallowable.
 - Costs incurred for transportation to and from an airport should be necessary and reasonable. For example, employees can be reimbursed by the SFA for mileage to/from the airport and for parking fees.
