Creating a Parent Account on OTIS for educators!™

OTIS for educators is your new online training and support platform. Videos on OTIS help families learn how to support distance learning by teaching skills like troubleshooting home wireless internet connections, enabling webcams, connecting to a Google Meet or Schoology, and much more. We encourage all of our families to sign up and take advantage of this opportunity.

1 Open up a web browser like Chrome or Safari and go to the **OTIS account creation page** to create an account.

2 **Fill out the form** with the necessary information (your name, contact information, personal email address, etc.).

3 When prompted, **enter the Group Code provided** by your school.

cae119

Provided by your district or school administrator

4 **And you're in!** You're now able to view all of the family content available on OTIS for educators.

If you have any issues with creating your account please contact **Teq at otis@teq.com** and let them know you are looking to create an account as a family member.
